Church Management Software Features

Know Your People

Stop worrying about your membership information - SimpleChurch smoothly organizes your members and prospects by their commonalities and makes it easy to look up people and their details. You can even set up a public directory for members!

The software stays out of your way, so you're not so much using it, as you are doing ministry.

Outreach & Follow Up

Keep up with people from their first visit to their baptism. With interactions, you can easily track when you were last in touch with any member.

By using interaction assignments you can involve pastors, small group leaders, and members in the ministry process.

Giving Made Easy

Easily track giving for your congregation and identify slumps with graphs for giving trends. With our online giving service, you can even use debit or credit cards to collect tithes and offerings from members.

You can even import giving data from other online giving services.

The Powerful Benefits You Need

- Extra-simple Search features allows you to quickly find any members or data.
- We're integrated with MailChimp, Constant Contact, Twilio, and SimpleChurch Giving to make managing your data easier.
- We can convert much your CMS people data and giving history.
- We don't hold your data hostage - You can export it at any time.

Better Mobile Integration

Our native iOS/Android App lets you:

- Add, edit, and view people
- Add pictures to people
- Take attendance
- Send mass email, SMS, and voice messages
- Log, assign, view, and edit interactions

No matter which device you're on, SimpleChurch's mobile web app has the solutions you need to manage your ministry from anywhere!

Attendance Trends & Follow Up

SimpleChurchCRM offers a robust attendance tracking system that not only allows you to see trends and absences, but also find and contact absentees. With **Child Check-In**, you can have multiple check-in stations within your church, letting you keep children secure. Our mass communication system keeps you in touch with everyone or just absentees via email, voice message, or text message.

The SimpleChurch Calendar Empowers Churches

- Manage all church events in one calendar (multi-campus is supported)
- Reserve rooms, equipment, and vehicles for events - never double-book again
- Request equipment for events, plus specific room setups
- Create custom calendars for different ministries
- Customize event approval processes for certain events and leaders.
- Automatically sync different ministries' calendars onto your church's website

SimpleChurchCRM is priced according to the number of people that you store.
There's no startup or setup fees!

Number of People	Price/Month
0-250	$40
251-600	$80
601-1,000	$110
1,001-2,000	$150
2,001-3,000	$210
3,001-4,000	$300
4,001-6,000	$400
6,001-10,000	$550
